---

*I'm currently a senior at Minuteman High School, and I love learning and taking on new challenges. At school and through my experiences, I've become good at solving problems, paying attention to details, and working well with others. I'm comfortable taking initiative and finding creative ways to get things done. I plan on likely studying Management and Engineering for Manufacturing at UConn and being in the Honors program next school year, but right now, I'm excited about any opportunity to learn, grow, and help out wherever I can.*

## EXPERIENCE

---

### ENERGY EFFICIENCY SPECIALIST INTERN, WEB/SEO DESIGNER

**Lexington, MA**

*July 2024 - Present*

A9 Green LLC

Responsibilities include assisting on field inspections and basic energy modeling, managing and moving outdated process from Sheets over to Zoho CRM, Zoho automations, automated positive review collection, and assisting with client communications. Contributing to sustainable development goals by implementing energy-efficient solutions. Collaborating with a team of experts to ensure successful project completion and client satisfaction. Analyzed statistics and successfully implemented SEO strategies and website redesign skills to completely transform A9 Green's online presence and visibility.

### BRAND REPRESENTATIVE

**Burlington, MA**

Abercrombie & Fitch Co.

*June 2024 - August 2024*

Responsibilities include providing great customer service by helping shoppers, answering questions, and making sure the store feels welcoming. Represent the Abercrombie & Fitch brand with a professional look, clear communication, and knowledge of current trends and promotions. Keep the store organized by setting up displays, restocking merchandise, and maintaining clean fitting rooms and sales areas.

### FREELANCE WEB DEVELOPER

**Arlington, MA**

Nitrojade

*May 2021 - Present*

Responsibilities include: Developing/maintaining websites for local businesses, utilizing HTML, CSS, JavaScript, NodeJS and responsive design. Constantly learning/adapting to evolving technologies. Collaborating with clients, customizing web solutions by focusing on effective communication and customer-centric problem-solving.
